Special Session Call for Papers

Interactive Mobile Communication: Social Implications in Workplace and Education (IMCSIWE)

Overview
With the ubiquity and rapidly expanding functionality of mobile technologies, users can interactively communicate at their workplace and learning environment. More and more researchers, developers and practitioners are employing resources, methods and applications to facilitate communication, collaboration and sharing. Interactive mobile devices can also make work and learning more accessible, equitable, personalized and flexible in educational settings. This special session will address novel methods and applications useful to those exploring everyday interactive mobile communication in their workplace, social and educational contexts.

Topics
The session aims to attract research papers and case studies on novel methods and applications related to interactive mobile communication. We invite researchers, developers and practitioners from various fields, including but not limited to engineering, technology, computer science, communication, business, linguistics, ethnography, sociology and psychology, working on the following areas:

- Business Online Communities
- Communities of Inquiry
- Educational Online Communities
- Social Implications of Mobile Utilization for Learning
- Social Implications of Mobile Utilization in the Workplace
- Mobile Social Interactions
- Social Networks in the Workplace
- Social Networks in Education
- Mobile Technology in Business Communication
- Experiential Learning Environments
- Mobile Interaction Challenges in the Workplace
- Case Studies in Mobile Learning
- Mobile Simulations in the Workplace
- Mobile Simulations in Education
- Game Based Learning
- Mobile Life-long and Informal Education
- Open and Distance Mobile Learning
- Mobile Communication and Language Use
- Interactive and Collaborative Mobile Learning Environments
- Mobile Knowledge Transfer in Education
- Mobile Knowledge Transfer in the Workplace

Contribution Types
Proposals for participation in the Special Session can be submitted in the following formats:

- Full Paper (min. 10 max. 12 pages). These include mainly accomplished research results.
- Short Paper (min. 6 max. 8 pages). These are mostly composed of work in progress reports or fresh developments.
All submissions will be peer-reviewed by at least two reviewers. All accepted papers will be included in the conference proceedings, provided at least one author pays the registration fee. The conference proceedings will be published as IMCL2019 Proceedings in the Springer series "Advances in Intelligent Systems and Computing". For further questions, please contact the track chair(s).
