

IMCL2015 – 2015 International Conference on Interactive Mobile Communication Technologies and Learning

19-20 November 2015, Thessaloniki, Greece

Special Session on Online Labs and Mobile Learning

Overview

With the amazing development of mobile technology along with the rapid growth of their usage all over the world, a big area of investigating is emerging and a need for constructing and adapting existing contents to these new platforms has arisen.

Furthermore, mobile learning needs more and more investigations and research to go along with these developments. We need to explore and improve the learning process and enable the development of mobile learning tools. Another field linked with the process of learning is online labs, we need to explore and develop multiplatform capable of running on PCs and mobile devices which integrate contents that helps students to study while moving.

This special session is intended to attract research papers showing novel applications in the field of mobile learning and online labs. We invite researchers, developers and all those working in this field to submit work under the following topics:

1. Mobile learning and Online labs
2. Mobile learning virtual Labs
3. Pedagogical approaches, models and theories for Mobile Learning
4. Design and Development of Mobile Platforms for Online Labs
5. Lab Clouds and Mobile Learning
